

Part B NPI Front-End Edit Release – Rejects Begin May 23, 2008

The front-end editing process continues to be a successful tool for reducing the number of suspended and unprocessable Medicare claims. In an ongoing effort to only allow clean claims into the Medicare processing system and to be in compliance with NPI implementation, TrailBlazerSM will begin returning the following edits as **INFORMATIONAL** effective **April 24, 2008**. On **May 1** the following edits will be returned as **WARNINGS**, and effective **May 23**, these edits will be returned as **REJECTS**.

Providers are encouraged to review the response report as soon as possible after transmission. Claims that are rejected must be corrected and resubmitted.

Edit #	Edit Message	Edit Logic
C3E	Other payer rendering provider contains 1C.	Set edit to set if the 2330E is submitted and contains 1C.*
